*Step Into China*

We all know that when it comes to learning languages, the earlier in life that you begin, the better.

That is why iMandarin offers comprehensive language and cultural programs for students aged 7 years old and up.

With years of experience, our professional and friendly instructors, monitors and coordinators work together to maintain a fun, educational and safe program to improve the language, cultural and social skills of all participants.

Students come from a variety of different countries and cultures, creating a diverse environment that encourages the development of language and interpersonal skills.

Our Mandarin camps provide the perfect opportunity for students to enjoy a wide range of activities, experience both the traditional and modern aspects of China and embark on an unforgettable language learning adventure.
